PROFILE

Results-driven and detail-oriented 3rd-year Software Engineering undergraduate specializing in project management, Agile methodologies, and cross-functional team coordination. Proven expertise in sprint planning, risk management, and stakeholder communication through real-world projects. Google & LinkedIn certified in Project Management with hands-on experience leading software development projects from initiation to delivery. Eager to leverage organizational skills and technical knowledge to drive project success and team collaboration.

EDUCATION

BSc (Hons) in Software Engineering

2023 – Present

Sabaragamuwa University of Sri Lanka - Current GPA : 3.73

G.C.E Advance Level - Physical Science Stream

2018 – 2020

WP/GM/ Rathnawali Balika Vidyalaya

PROJECTS

CodeFlow AI - AI-Powered VS Code Extension (Group Project - Completed)

An AI-powered tool to help developers understand and improve their coding habits via data-driven insights, interactive Flow Reports, and gamified feedback.

Contribution:

- Project planning, timeline management (Gantt charts), and front-end development.
- Coordinated Agile sprints and team collaboration to deliver features iteratively.
- Ensured seamless integration of AI modules, data tracking, and visual reporting dashboards.

Tech Stack: React | Node.js | MongoDB | FastAPI | Tailwind CSS | Trello

Project Supervision Management System (PSMS) - Web Application (Group Project - Completed)

A centralized platform to streamline academic project supervision by enhancing communication, submission tracking, and feedback management between students, lecturers, and administrators.

Contribution:

- Led backend development, including API design, authentication, and database management.
- Implemented role-based access control, submission tracking, and feedback handling features.
- Integrated notification systems to improve timely communication between stakeholders.

Tech Stack: React.js | Node.js | Express.js | MongoDB | Tailwind CSS | JWT | REST APIs | GitHub

PlantZone - Responsive Plant Website (Individual Project - Completed)

A responsive plant information website designed to provide smooth browsing and an engaging user experience for plant enthusiasts and gardeners.

Contribution:

- Developed end-to-end front-end using responsive design principles.
- Ensured smooth performance across devices and deployed the project online.
- Learned and applied modern web development techniques and UI/UX best practices.

Tech Stack: HTML | CSS | JavaScript | Tailwind CSS | Netlify

TECHNICAL SKILLS

Tools and Technologies

Trello, Jira, MS Office Tools, Canva, IntelliJ IDEA, Visual Studio Code, Postman

Version Control

GIT

Frameworks & Libraries

ReactJS, Tailwind CSS, NodeJS

Databases

MySQL, MongoDB

Programming Languages

C, Java, JavaScript, HTML, CSS, Python

SOFT SKILLS

Collaboration and Teamwork, Communication, Attention to Detail, Problem Solving, Adaptability, Creativity and Innovation, Interpersonal Skills, Analytical Thinking

ACHIEVEMENTS

Top Ambassador at TechX Sri Lanka 2025

Project Coordination & Leadership - Recognized as Top Ambassador among nationwide university representatives for effectively coordinating participant engagement, leading team registrations from Sabaragamuwa University of Sri Lanka, and contributing to the successful execution of the INNOVA Hackathon and overall event operations.
